REPORT OF THE INDEPENDENT ACCOUNTANT

To the management of Starfield Technologies, LLC ("Starfield"):

Scope

We have examined Starfield, subsidiary of GoDaddy Inc. ("GoDaddy"), management's assertion that for its Starfield and GoDaddy Certification Authority ("CA") operations in Arizona and Virginia, in the United States of America, for its CAs as enumerated in Attachment B, Starfield has:

- disclosed its business, key lifecycle management, certificate lifecycle management, and CA environmental control practices in the applicable versions of its Starfield Technologies, LLC Certificate Policy and Certification Practice Statement ("CP/CPS") enumerated in Attachment A

- maintained effective controls to provide reasonable assurance that Starfield provides its services in accordance with its CP/CPS

- maintained effective controls to provide reasonable assurance that:
  - the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
  - the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
  - subscriber information is properly authenticated; and
  - subordinate CA certificate requests are accurate, authenticated, and approved

- maintained effective controls to provide reasonable assurance that:
  - logical and physical access to CA systems and data is restricted to authorized individuals;
  - the continuity of key and certificate management operations is maintained; and
  - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

throughout the period July 1, 2022 to June 30, 2023 based on the WebTrust Principles and Criteria for Certification Authorities v2.2.2.

Starfield does not escrow its CA keys, does not provide subscriber key generation services, subscriber key storage and recovery services, integrated circuit card lifecycle management for subscribers, and does not provide certificate suspension services. Accordingly, our examination did not extend to controls that would address those criteria.

Certification Authority's Responsibilities

Starfield's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification Authorities v2.2.2.

Independent Accountant's Responsibilities

Our responsibility is to express an opinion on Starfield management's assertion based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with relevant ethical requirements relating to the engagement.

The relative effectiveness and significance of specific controls at Starfield and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls and other factors present at individual subscriber and relying party locations. Our examination did not extend to controls at individual subscriber and relying party locations and we have not evaluated the effectiveness of such controls.

Inherent Limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorized access to systems and information, or failure to comply with internal and external policies or requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

Independent Accountant's Opinion

In our opinion management's assertion, as referred to above, is fairly stated, in all material respects.

This report does not include any representation as to the quality of Starfield's services other than its CA operations in Arizona and Virginia, in the United States of America, nor the suitability of any of Starfield's services for any customer's intended purpose.

Other Matter

Without modifying our opinion, we noted the following other matters during our procedures:

	Matter Topic	Matter
1	Certificate Revocation	GoDaddy disclosed in Mozilla Bug #1793848 that they failed to revoke a number of subscriber certificates within the 24 hour requirement.
2	Certificate Validation	GoDaddy disclosed in Mozilla Bug #1793642 that four (4) GoDaddy root CRLs were version 1, and two (2) GoDaddy root CRLs were version 2 but do not contain CRL number extensions.
3	Access Management and Access Review	Access to in-scope servers was not revoked within 24 hours for two (2) users that were removed from the trusted roles and transferred to other positions within the organization. These users were not identified during quarterly access reviews.

While the Starfield assertion notes all issues disclosed on Bugzilla from July 1, 2022 through the date of this report we have only noted those instances relevant to the CAs enumerated in Attachment B and applicable to the WebTrust Principles and Criteria for Certification Authorities v2.2.2.

Use of the WebTrust Seal

Starfield's use of the WebTrust for Certification Authorities Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

STARFIELD TECHNOLOGIES, LLC MANAGEMENT'S ASSERTION

Starfield Technologies, LLC ("Starfield"), subsidiary of GoDaddy Inc. ("GoDaddy"), operates the Starfield and GoDaddy Certification Authority ("CA") services for the CAs enumerated in Attachment B, and provides the following CA services:

- Subscriber registration
- Certificate renewal
- Certificate rekey
- Certificate issuance
- Certificate distribution
- Certificate revocation
- Certificate validation
- Subordinate CA certification and cross-certification

The management of Starfield is responsible for establishing and maintaining effective controls over its CA operations, including its CA business practices disclosure on its repository, CA business practices management, CA environmental controls, CA key lifecycle management controls, certificate lifecycle management controls, and subordinate CA certificate lifecycle management controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to Starfield's CA operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

Starfield management has assessed its disclosures of its certificate practices and controls over its CA services. Based on that assessment, in Starfield management's opinion, in providing its CA services in Arizona and Virginia, in the United States of America, Starfield has:

- disclosed its business, key lifecycle management, certificate lifecycle management, and CA environment control practices in the applicable versions of its Starfield Technologies, LLC Certificate Policy and Certification Practice Statement ("CP/CPS") enumerated in Attachment A

- maintained effective controls to provide reasonable assurance that Starfield provides its services in accordance with its CP/CPS

- maintained effective controls to provide reasonable assurance that:
  o the integrity of keys and certificates it manages is established and protected throughout their lifecycles;
  o the integrity of subscriber keys and certificates it manages is established and protected throughout their lifecycles;
  o subscriber information is properly authenticated; and
  o subordinate CA certificate requests are accurate, authenticated, and approved

1

- maintained effective controls to provide reasonable assurance that:
  - logical and physical access to CA systems and data is restricted to authorized individuals;
  - the continuity of key and certificate management operations is maintained; and
  - CA systems development, maintenance, and operations are properly authorized and performed to maintain CA systems integrity

throughout the period July 1, 2022 to June 30, 2023 based on the WebTrust Principles and Criteria for Certification Authorities v2.2.2, including the following:

CA Business Practices Disclosure

- Certification Practice Statement (CPS)
- Certificate Policy (CP)

CA Business Practices Management

- Certificate Policy Management
- Certification Practice Statement Management

CA Environmental Controls

- Security Management
- Asset Classification and Management
- Personnel Security
- Physical & Environmental Security
- Operations Management
- System Access Management
- System Development, Maintenance, and Change Management
- Disaster Recovery, Backups, and Business Continuity Management
- Monitoring and Compliance
- Audit Logging

CA Key Lifecycle Management Controls

- CA Key Generation
- CA Key Storage, Backup, and Recovery
- CA Public Key Distribution
- CA Key Usage
- CA Key Archival
- CA Key Destruction
- CA Key Compromise
- CA Cryptographic Hardware Lifecycle Management
- CA Key Transportation
- CA Key Migration

Subscriber Key Lifecycle Management Controls

- Requirements for Subscriber Key Management

Certificate Lifecycle Management Controls

- Subscriber Registration
- Certificate Renewal
- Certificate Rekey
- Certificate Issuance
- Certificate Distribution
- Certificate Revocation
- Certificate Validation

Subordinate CA and Cross Certificate Lifecycle Management Controls

- Subordinate CA Certificate and Cross Certificate Lifecycle Management

Starfield does not escrow its CA keys, does not provide subscriber key generation services, subscriber key storage and recovery services, integrated circuit card lifecycle management for subscribers, and does not provide certificate suspension services. Accordingly, our assertion does not extend to controls that would address those criteria.

Starfield has disclosed the following matters publicly on Mozilla Bugzilla's platform. These matters were included below due to being open during the period July 1, 2022 through the date of this report.

Bug ID	Summary	Opened	Closed	Resolution
1777128	GoDaddy: Misissuance of Cross Signed Certs	6/28/2022	8/15/2022	FIXED
1793848	GoDaddy: Failure to revoke 210 subscriber certificates within 24 hours	10/5/2022	11/26/2022	FIXED
1793642	GoDaddy: CRLs are version 1 and lack CRL Number extension	10/4/2022	1/15/2023	FIXED
1829024	GoDaddy: CRL Issuer Mismatch	4/19/2023	5/5/2023	FIXED

In addition to the matters disclosed in Mozilla Bugzilla's platform, Starfield has noted the following matter:

Matter Topic	Matter	Management Response
Access Management and Access Review	Access to in-scope servers was not revoked within 24 hours for two (2) users that were removed from the trusted roles and transferred to other positions within the organization. These users were not identified during quarterly access reviews.	GoDaddy noted the two users that transferred positions did not access in-scope servers after the change in position.
